No area is immune to possibility of a mass casualty incident. Whether it's a school bus full of kids that slides off a roadway or a shooting at a school strong leadership is a must!

The successful management of the incident will rely on an Incident Command Team that must organize available resources to build the operation.

Chief Prete will detail the process for sound incident management for a MCI using an interactive lecture and review of case studies.

Eventually students will participate in several individual and group simulation MCI exercises under the tutelage of the Chief Prete.
